

OCTOBER MEETING

7:30 PM, WEDNESDAY, OCTOBER 9

LI-COR, LINCOLN, NEBRASKA

OCTOBER CLUB MEETING

AN INTRODUCTION TO HF DIGITAL MODES

Mike Walsh's, KBØQH, program will cover the following questions: What are Digital modes; what are the most popular modes, and why should you use them; what do I need to get started in digital, including some hints and tips; and where can I go to get more information?

LARC president, Ed Holloway, KØRPT, will give a brief overview of the upcoming SETE emergency operations exercise.

— Mike Walsh, KBØQH

PRESIDENT'S COLUMN

Are you ready for winter? It's right around the corner, with some parts of the country already seeing snow.

We had a great turnout for the transmitter hunt, and I'm pretty stoked that some new guys were the first to find us. Kelly and Harrison Gubser, NØKDG and NØHDG, came down the drive first. Next was the team of Dean Christensen, NEØUS, and Chuck Bennett, KDØPTK, with some help from Gordon Trout's, WØKBS, base station. Coming in third was Alan Boldt, KDØRIY, and his two children, and last was Lance Ferguson, WUØQ, with his wife and three children. Thanks to you all for participating. Huge shout out to Mike Long, KØSHC, for keeping the mic warmed up while I cooked and to our host, Greg Brown, KTØK, for allowing us to use his driveway at the last minute. It was a great time and, as we have done in the past, the first finder is the next hider. Look in this LOG for details about the next hunt!

A call from our EOC Director, Jim Davidsaver, on Wednesday, September 18, prompted a quick response to activate volunteers to assist with a statewide 911 outage. The call came in at 7:49 am. At 7:50, I sent a text to all volunteers to check in on 146.76. At

7:52, I asked Ron Mayhew, KEØBHQ, and Greg Brown, KTØK, to activate a net and deploy volunteers to locations throughout the county and city. At 7:57, I requested Eric Bigham, KØJIA, to turn on the tones on 76. At 7:56, people started receiving the text message. At 7:58, I received a call from Jim, asking us to stand down, as the 911 system was restored. By 8:00, we were responding to folks checking in. Great job, everybody!

Look in the LOG for details regarding a statewide ARES Simulated Emergency Training Exercise (SETE) on Saturday, October 26.

We had a club good presentation last month. Greg Brown, KTØK, had folks on the edge of their seats. Great show! Thank you!

See you all at the club meeting!

— Ed Holloway, KØRPT

BOARD MEETING DATES

Club members are welcome to attend all Board meetings. Meetings are at the Elks Lodge, 5910 S 58th at 7:00 pm.

- ◆ Thursday, October 24
- ◆ Tuesday, November 26
- ◆ Wednesday, December 18

— Ed Holloway, KØRPT

BOARD MEMBER ELECTIONS

The Lincoln Amateur Radio Club, Inc. is a 501(c)(3) organization, which requires a Board of Directors to monitor activities, treasury, and

assets. In accordance with LARC Bylaws, the president appoints a committee to handle yearly elections.

The nominating committee members are Mike Long, KØSHC; Heather Chesnut, KDØBXA; Lance Ferguson, WUØQ; and Eric Bigham, KØJIA.

If you have considered running for the Board, we have begun the process of gathering names for the upcoming ballot and election in December.

Elected club members serve a two-year term and, every year, four members of the current Board are up for re-election, along with those who choose to run.

If you enjoy involvement and want more to do with the club, consider running for the Board. You must be in good standing with your membership.

If you want to serve on the Board, submit your name, a recent photo, and a short bio (250 words or less) to a member of the nominating committee by **Monday, October 21**, for publication in the November LOG.

Additionally, there will be an open time during the November meeting for the committee to receive nominations from the floor. Nominees from the November

meeting will not be able to publish a bio prior to the election. All candidates will be given the opportunity to deliver a short speech at the December meeting prior to the vote. It is better for you to submit your name in October!

Please consider running. This is an important and rewarding opportunity for all club members!

— Mike Long, KØSHC
Nominating Committee Chair

2019 HOLIDAY PARTY

Save the date! Saturday, December 14, is the LARC Holiday Party at the Elks Lodge #80, 5910 S. 58th Street. Doors open at

5:00 pm, and supper will be served at 6:00. More details to follow in the November LOG.

—Heather Chesnut, KDØBXA

SEPTEMBER LOG ASSEMBLY CREW

Thank you to the following individuals who prepped the September LOG: WØBCL, KDØDIU, KØJSL, KBØK, KØNC, WØZWY, Becky Pugsley, and Jon Peterson.

Join us for our next LOG folding session at the Elks Lodge #80, 5910 S. 58th Street.

— Jeri Lyn Rogge, NØJLR

GHOST HUNT

There will be a transmitter ghost hunt (aka, fox hunt) on Sunday, October 27, starting at 3:00 pm. Kelly and Harrison Gubser, NØKDG and NØHDG,

and perhaps a few other goblins will be hiding somewhere in Lancaster County.

Participants will be asked to check in on the 146.76 repeater. Once check-in is completed, the ghostly transmissions will begin on 146.52 simplex, lasting for two minutes, followed by three minutes of eerie silence until all searching souls have found the ghost.

There are no rules here, just some good Halloween-themed fun on the air! As always, use common sense when navigating your path and whatever triangulation methods you have.

Bring a chair. We will have a big pot of chili plus, Halloween treats, waiting for you.

The backup date, in the case of inclement weather, is Saturday, November 2. Check the LARC Facebook page for updates as the event approaches.

—Kelly Gubser, NØKDG

SILENT PAW: BEAR

This is for all the Hams for have asked about Bear and wondered about his well-being.

On September 14, Reynolds Davis, KØGND, had to put down his 15-year-old dog, Bear.

Bear was a sweet dog, a gentle giant who loved kids, adults, and the many Hams who visited Reynolds' home.

—Connie Zehr, NØGMA

SOCIAL MEDIA

LARC is on Facebook and Twitter! Search for "Lincoln Amateur Radio Club" on either network, or navigate to fb.me/LARCLincoln and twitter.com/K0KKV. We also now have the Lincoln Amateur Radio Club KØKKV group on Facebook at bit.ly/LARCgroup, which is a great resource to chat with other Hams, offer up any gear you have, and much more.

If you have questions or content to submit for distribution, please email me at wj0tx@arrl.net. Get social with us!

— Justin Williamson, WJØTX

PUBLIC SERVICE UPDATES

With the arrival of fall, it is almost the end of public service for 2019. THANK YOU TO ALL WHO PARTICIPATED THIS YEAR!

Hold on! We're not quite done.

Sunday, October 6, is the seventh annual EYE RUN at Holmes Lake Park in Lincoln. This is a fundraiser for Christian Record Services for the Blind. Thank you for your response to the call for volunteers!

Saturday, October 12, is the Market to Market Relay Race. Runners start in Omaha at Aksarben Village and end up here in Lincoln near the Haymarket. They run as teams of between six to nine members and race relay style. Some come in costumes and decorate their vehicles. Rent-a-van in Omaha and Lincoln often runs out of vans the day of the race! It is fun to watch the participants, and there is quite the party at the finish line.

Our job is make sure the runners get here safe and sound. Our coverage area is from the Platte River to Lincoln via county roads and the MoPac bike trail. By the way, this relay race is the largest and longest in the country!

The Aksarben Amateur Radio Club is in charge of handling the racers on the east side of the Platte River. I need lots of help with this event. Start times are staggered so you're not out all day long.

Pink Gorilla Events, which operates Market to Market Relay, really appreciates our help and they make a nice financial contribution to the club for our efforts, so please consider helping.

The next day, Sunday, October 13, is the CROP Walk. Twenty-five percent of the proceeds from the CROP Walk help support the following local agencies: Tabitha Meals on Wheels; Indian Center, Inc.; and Food Pantries at St. Marks on the Campus, Northeast Area, Norris Area, and Eastridge. Contact Heather Chesnut, KDØBXA, at kd0bxa@gmail.com, if you can help.

And finally, Sunday, November 3, is the annual Good Life Halfsy! It starts at East High School and ends in the Railyard. It does not take up your whole day, mostly just the morning. Pink Gorilla Events also operates this event, and they appreciate our efforts to assist LPD to make this safe and fun for all!

That wraps up our season. Your time is really valued by all the sponsors that we help. So, enjoy your winter. I hope to see many of you next year for another season of Public Service!

— Mike Long, KØSHC
Public Service Chair

LOOKING FOR WRITERS

Do you have Amateur Radio-related news to share? If so, drop us a line at log@k0kkv.org.

— Jeri Lyn Rogge, NØJLR

LARC ARES 2-METER NET OPERATORS

LARC is active in the Amateur Radio Emergency Service, (ARES®), a program of the ARRL, which is comprised of organized, trained, qualified, and credentialed Amateur Radio operators who provide radio communications during emergencies and disasters. These individuals augment and support vital communications on behalf of the public through partner agencies and organizations during emergencies and disasters. ARES® radio communicators strive to be effective partners in emergency response, providing public service partners at all levels with radio communication expertise, capability, and capacity.

Every evening, at 9:00 pm, an ARES® net is held on 146.76. It provides an opportunity to practice net protocol, ensure equipment is working, become more at ease with talking on the radio, and get to know the other radio operators in the area.

Each net is run by a volunteer, who gives of their time and skill to ensure that the net runs smoothly. Here are your net controllers:

SUNDAY

Bryan Leavitt, WØBCL

Bryan, WØBCL, is a veteran net control operator. Bryan has been hosting the Sunday net for many years. As part of the Sunday net, he provides updates on the weekly weather and sunspot activity. Bryan has served on the LARC Board and helps teach the ham radio classes offered each fall and spring. He is a longtime volunteer for the American Red Cross.

MONDAY

Eric Vander Woude Jr., KØEVW

Eric, KØEVW, is a mechanical engineering student at the University of Nebraska-Lincoln. He took over the Monday nightly net as a high school student shortly after receiving his technician license.

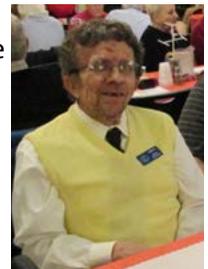

In addition to LARC, Eric is involved in many clubs and activities, including the Cornhusker Marching Band and UNL Aerospace Club. Outside of schoolwork, Eric enjoys reading personal development books and climbing at the UNL Outdoor Adventure Center. His career goal is to help with research at NASA.

TUESDAY

Mike Disney, NØDIZ

Mike, NØDIZ, has hosted the nightly net for many years and relays call signs that other operators can't pick out from the noise. Mike is always ready to make sure the nets are covered every day of the week. He will step up to the microphone if there is dead air where there should be opening words: "CQ CQ! Lincoln Amateur Radio Club ARES 2-meter net."

NET OPERATORS, CONT. ON PAGES 8 & 9

NET OPERATORS, CONT.

WEDNESDAY

Lance Ferguson, WUØQ

I got into Amateur Radio with my general ticket in spring of 2017 to serve as a storm spotter, and my interests have kind of taken off from there. After the storm season passed, I got into HF and then upgraded to Amateur Extra in early 2018.

With my regular job (I'm a Lutheran pastor), I find it difficult to regularly participate in many of the weekend outreach activities, so decided to try my hand as a net controller as a way to serve the club and the community. Ironically, I likewise work many Wednesday early evenings, which keeps me from other activities, like club meetings, but it gets me home in time to call the net. My wife Lora is a professional quilter and we live outside of Raymond, where we enjoy restoring our old house, camping, and spending time with our 10 grandkids.

I look forward to hearing you Wednesdays at 9:00!

THURSDAY

Bev Bennett, KDØPTR

Bev, KDØPTR, has been hosting the Thursday net for two years and believes it is an opportunity to practice good net protocol. Her father-in-law, Jerry Bennett, WØWKP/SK, was a longtime member of LARC. Bev

stated that even though she and husband Chuck, KDØPTK, were familiar with ham

radio, they didn't get their licenses until son Jeff, WØWKP, encouraged them to become Hams.

"What I love about ham radio is you are not divided into age groups, but all ages serve side by side. I encourage all ages to jump in and take a shot at net control."

Bev was licensed in 2012 and began immediately checking into the nightly nets. She encourages all Hams to check into the nightly net to check your radio signal or just let the net family get to know your call and recognize your voice. Bev has been married for 58 years and has three children and 12 grandchildren.

FRIDAY

Eric Bigham, KØJIA

Eric, KØJIA, is the net control manager. Eric is responsible for seeing that the nets are covered every evening and submits net reports every month.

Eric hosts the Friday night net and gives us a challenge with his trivia question to solve. He is a busy dad and husband, yet gives his time to make sure the nightly nets are hosted and on the air. Eric also keeps those listening to 146.760 updated on weather conditions affecting Lancaster County and surrounding counties.

SATURDAY

Levi Burrows, KEØTXD

My interest in radio started when I took a physics class and noticed similarities of frequency and wave propagation to musical

NET OPERATORS, CONT.

instruments (I'm also a musician). Around that same time, I learned that fractals had found a new use in antenna design. A fractal is a repeating pattern that continuously gets smaller. This turned out to be a major breakthrough in antenna design. Not only could the antennas be made much smaller, they were also very broad band antennas. This is what gives our smartphones the various RF capabilities: Cellular, Wi-Fi, and Bluetooth.

It was several years later I was doing some research and discovered Amateur Radio. I knew this would be a good platform to experiment and learn more. I bought my first radio, and the KØKKV net was the first Amateur Radio group I listened to. I enjoyed listening to the different net control stations and really appreciated it being available every night. When Eric Bigham, KØJIA, asked me to help keep the net going, I was happy to do so, and I've been doing it ever since.

At a time when many nets are going dark, 146.760 ARES net operates seven days a week. Take a minute at 9:00 pm on 146.760 and say hello to the ARES net operators. Ask for a radio check or just sign in with call sign. Comments are always welcome.

— Bev Bennett, KDØPTR

HAVE A GREAT IDEA FOR LARC?

Have you brewed up a great idea for education, social outings, fundraisers, club meetings, or more? Email your ideas to log@k0kkv.org.

USED EYEGASSES NEEDED

The Lions Clubs International of Lincoln will have a used glasses collection box at the LARC October meeting.

— Dale & Kay Softley, KDØPTE/KDØTPP

MEMBERSHIP RENEWALS

Heads up! LARC membership dues for 2020 are needed soon — January will be here before we know it! Memberships are on the calendar year, January through December. Your annual membership helps make many of the activities of this club possible and provides for this LOG.

If you haven't renewed yet, please see Greg Brown, KTØK, at the club meeting, renew online, or see the back page for how to mail in your renewal. If you are not a member, consider joining the Lincoln Amateur Radio Club today.

Thank you for your support!

— Aaron Rogge, NØADR

PUBLIC SERVICE: THANK YOU!

Thank you to the following individuals who helped with the YMCA Last Blast Lincoln Triathlon on Saturday, September 15: NØDIZ, KEØERA, KØKPH, KDØONQ, KØSHC, and KFØSY.

— Mike Long, KØSHC
Public Service Chair

ARES HAPPENINGS

NEBRASKA ARES SETE 2019

Simulated Emergency Training Exercise (SETE)

Sunday, October 26, 2019, 9:00 am - 12:00 pm

Nebraska Section Amateur Radio Emergency Services (ARES) will be conducting an SETE on Saturday, October 26, 2019. The purposes of the exercise are to evaluate strengths and weaknesses in emergency preparedness and communications and demonstrate Amateur Radio to the organizations and public we serve. Amateur Radio operators in the Nebraska Section are encouraged to participate from their home stations, deploy to a field location suitable for Amateur Radio activities, or activate local emergency operations centers. Please consult your county's Emergency Coordinator for details. Those amateurs in Lancaster County who wish to participate should sign up by visiting KOKKV.org.

The goal of the 2019 Nebraska Section SETE is to test the ability of stations operating in FM Simplex or through repeaters, while on battery backup, to pass messages to localized, specific destinations throughout the state. In addition to localized, specific message handling, local leaders such as your EC, DEC, and ASEC will utilize other forms of communication to pass traffic to the SEC that can include DSTAR, DMR, HF, and packet.

Simple messages will be generated to send to the destination stations. This will help test the stations' abilities to accurately copy and pass messages. NTS formatted messaging will be utilized at the AEC to SEC level.

— Ed Holloway, KØRPT
ARRL Nebraska Section EC

2019 LARC AWARDS

Remember that all requests and nominations for the Jerry Cox, WØMAO, and Robert Fricke, WØPOL, awards can be submitted online at neares.net/larc-awards or emailed to Ed Holloway, KØRPT, k0rpt@arrl.net, no later than Friday, November 15, to allow time for judging and plaques to be printed. See the September LOG for full details.

— Ed Holloway, KØRPT
Awards Chair

SWITCH TO THE DIGITAL LOG

Make the switch to digital and be among the first to receive club news. Additionally, you will help keep the club's costs down so there are more funds for other activities.

Sign up online at k0kkv.org/lincoln-log or email log@k0kkv.org.

— Jeri Lyn Rogge, NØJLR

SEPTEMBER VE EXAM

**ARRL
VEC**

Before I get to the main report, I need to solicit again for VEs to come to our sessions.

We have been getting a little slim on who is able to show up. Please feel free to have supper with the crew before our sessions each month.

We had six examinees during our regular session on September 5. Five examinees passed for a new or upgraded license.

TECHNICIAN

- ◆ Brian Koenig, KEØWUB, Lincoln
- ◆ Daniel O'Hara, KEØWUD, Lincoln
- ◆ Donald Otto, KEØWUC, Blair

GENERAL

- ◆ Dennis Rosburg, KEØWUE, Beaver Crossing

EXTRA

- ◆ Marvin Garber Jr., WØZVQ, Lincoln

Congratulations to our licensees!

Volunteer Examiners (VEs) who participated this month were KCØDHM, NØJWS, KCØPJR, and KØSIL.

Upcoming exam dates are October 3, November 7, and December 5 at Virginia's Café, 3820 Cornhusker Highway. We look forward to all who can attend and either assist or take an exam.

— Chris Evens, KCØPJR

ABOUT THE LINCOLN AMATEUR RADIO CLUB

The Lincoln Amateur Radio Club, Inc. (LARC), is a nonprofit organization devoted to the promotion of Amateur Radio. The club sponsors activities and programs to promote growth in Amateur Radio, as well as furthering the experience of those already licensed, and to create international good will.

The *Lincoln LOG* is mailed monthly to all paid members of LARC and to all Lancaster County, Nebraska, Hams.

If your label says, "COMPLIMENTARY," please consider joining the club and supporting its activities. Even if you are not currently active, your contribution will help to ensure the future of Amateur Radio. Annual dues are only \$20. For your convenience, please join by completing and mailing in the form below or visit k0kkv.org and use PayPal.

The *LOG* solicits your input. If you have an idea for an article, wish to contribute an article or photo, or want to place an ad in the *LOG*, contact the editors at log@k0kkv.org. The deadline for each issue is generally the last Tuesday of the previous month.

The *LOG* and other Lincoln Amateur Radio Club information are available at k0kkv.org and at facebook.com/LARClincoln and may be used freely. Permission is granted to other publications to reprint articles, provided that source credit, author, and previous print source appear in the reprint.
