

LARC MEETING

7:30 PM, WEDNESDAY, OCTOBER 12

LARC CLUBHOUSE | 4420 NW 41ST ST., LINCOLN, NE

CHOOSING YOUR FIRST RADIO: HF EDITION

Aaron Rogge, NØADR

In-person only: LARC Clubhouse (4420 NW 41st St., Lincoln).

By request, the October club presentation will focus on selecting an HF radio. Bryan Leavitt, WØBCL, and Jim Nelson, WØJRN, will talk about what to look for in an HF rig and help you narrow the field as you search. Recommendations will also be provided.

PRESIDENT'S COLUMN

Aaron Rogge, NØADR, LARC President

One way to measure an organization's vitality is participation. According to Club Express (clubexpress.com), the average club has 5% of members who run the

club and show up for almost every event, another 15% of members regularly participate, 20% occasionally participate, and the remaining 60% never show up for anything!

I am here to tell you that LARC is well above average, but we still have lots of room to grow. We are close to the 5% who run the club and show for everything, but our regular participation is closer to 25%, and our occasional participation is well above 50%. Those that never participate are in the minority.

The first step I see to strengthen LARC is to grow the core 5% to at least 10%. This would mean identifying at least 16 people to be regularly and deeply involved in the club.

How can we get there? First, we need more people to run for the Board. Bring your new ideas and passion for Amateur Radio. Four Board positions are opening up in December. Check page 5 for details on how you could become part of the Board.

Second, lead a committee. In January, the president is tasked with finding people to chair committees that drive LARC forward (review the list on page 2), and this daunting task often results in many of the same people chairing these committees each year.

You can change this! Reach out to a current Board member and let them know what committees interest you. In January, call the new president and tell them about your passion. If you don't want to chair a committee, that's OK. Many of these committees need other members, and there is room for everyone.

LARC membership is currently up over the last few years, participation is high, and we can strengthen LARC together. What will you do to boost our club's vitality?

Do you have news to share? Send it to log@k0kkv.org.

BOARD MEETINGS

Aaron Rogge, NØADR

LARC members are invited to attend all Board meetings at the LARC Clubhouse, 4420 NW 41st St. The next Board meeting is Sunday, October 16, at 5 pm.

VE REPORT

Chris Evens, KCØPJR, VE Coordinator

We had a busy September, with two sessions and 11 people testing. Of these 11, six passed for a new or upgraded license. Four candidates tested on Monday, September 19, after the Technician Class at Union College's Kruger Hall. The seven remaining candidates tested during our standard session at College View Church.

TECHNICIAN

- ◆ Thomas Jordison, KFØKGE, Lincoln
- ◆ William Kimsey Jr., KFØKGJ, Seward
- ◆ Gavin Swallow, KFØKGI, Omaha

GENERAL

- ◆ Roman Nelson, KFØKGL, Crete
- ◆ Dylan Pirnie, KFØKKF, Lincoln

GENERAL

- ◆ Thomas Meyer, KFØJDP, Lincoln

Thank you to the Volunteer Examiners (VEs) who participated this month: NØADR, WØBCL, KCØDHM, KCØHN, NØLNK, KCØPJR, and K3WY. Thank you for giving your time to those beginning or advancing in Amateur Radio.

VES NEEDED

Chris Evens, KCØPJR, VE Coordinator

Would you like to become a Volunteer Examiner (VE)? This is a great way to use your Amateur Radio license to help people enter or advance in the hobby!

Learn more here:
www.arrl.org/become-an-arrrl-ve.

PUBLIC SERVICE UPDATE

Mike Long, KØSHC

October is a busy month. Our first event is Market to Market Relay on Saturday, October 8, followed by the CROP WALK on Sunday, October 9.

Two weeks later is the Good Life Halfsy Race on Sunday, October 23. This is a half-marathon in Lincoln, from Seacrest Field to the Haymarket.

I will have a sign-up form for the Halfsy at the next club meeting, or you can email me at k0shc13@yahoo.com or Aaron Rogge, NØADR, at n0adr@ajrogge.com. Thank you!

HOLIDAY PARTY: SAVE THE DATE!

LARC Holiday Party Committee

The annual holiday party is scheduled for Saturday, December 3. Stay tuned for more details as the date gets closer.

GENERAL CLASS STARTING SOON

Aaron Rogge, NØADR

The General class will begin on Monday, October 17, and run from 6:30 pm - 9:30 pm at the LARC Clubhouse (4420 NW 41st St.). Attendees will want to order a copy of the *ARRL General Class License Manual 9th Edition*, which is available from the ARRL and Amazon.

If you have any questions about the class, contact Bryan Leavitt, WØBCL, at w0bcl@arrl.net.

BOARD MEMBER ELECTIONS

Aaron Rogge, NØADR

The Lincoln Amateur Radio Club, Inc., is a 501(c)(3) organization, which requires a Board of Directors to monitor activities, treasury, and assets. In accordance with LARC bylaws, the president appoints a committee to handle yearly elections. This year's election committee is chaired by Ed Holloway, KØRPT.

If you have considered running for the Board, now is the time to do it. Contact Ed and let him know. The LARC Board election occurs during the December club meeting.

Elected club members serve a two-year term, and every year, four members of the current Board are up for re-election, along with those who choose to run.

If you enjoy being involved and want more to do with the club, consider running for the Board.

All nominees must submit their name, a recent photo, and a short bio (250 words or less) to Ed, k0rpt@arrl.net, by

Thursday, October 20, for publication in the November LOG.

Additionally, there will be an open time during the November LARC meeting for the committee to receive nominations from the floor. **Nominees from the November meeting must submit their photo and bio to Ed by Thursday, November 17, for inclusion in the December LOG.**

All candidates will be given the opportunity to deliver a short speech at the December meeting prior to the vote.

Please consider running. This is an important and rewarding opportunity for all club members!

- 3.01 An elected Director shall:
 - 3.01.01 Have a vital interest in Amateur Radio and the Club.
 - 3.01.02 Be a Full Club member for six (6) months immediately prior to nomination.
 - 3.01.03 Be a licensed Amateur Radio Operator.
 - 3.01.04 Not miss more than three consecutive Club or Board meetings without substantial cause.
 - 3.01.05 Be willing to serve on one or more committees as necessary.

LARC AWARDS

Ed Holloway, KØRPT

The award season is upon us. Submit requests and nominations, along with a paragraph about why your nominee deserves to be recognized, to Ed Holloway, KØRPT, k0rpt@arrl.net, by **Monday, October 31**. Award winners will be announced at the December holiday party.

JERRY COX AWARD

In the early 1950s, Jerry Cox, WØMAO, was without a doubt the most active Ham in the Lincoln area. Though disabled and in a wheelchair, he was on the air constantly, monitoring several frequencies and providing assistance where needed. Jerry became a silent key about 1960, and his mother thought it seemed fitting to recognize Amateur Radio operators who carried on his dedicated interest in ham radio. At that time the Jerry Cox Award came into being, it was sponsored by the Lincoln MARS Club.

The award is to be presented annually to a Ham whose interests closely followed Jerry's: excellent operating techniques, active in public service, and an interest in experimenting and exploring things of a technical nature. In addition, the Ham should be friendly to all and eager to help those who are new to the hobby. It is not designed to be a popularity contest. Nominees are to be made by fellow Hams and the recipient selected from those nominated. The recipient will have his or her name and call sign affixed to the award plaque, recognizing excellence in the Amateur Radio community.

ED WOERNER MENTORING AWARD

This award is presented to an individual who has acted as a mentor (or "Elmer") and helped other ham operators to advance in the hobby. By definition, a mentor is a wise and trusted counselor or teacher. Ham operators have a tradition of helping one another, and the Ed Woerner Award is given to one whose assistance has gone above and beyond what would have been expected. Nominations for this award are sought from Amateur Radio operators in the area; LARC membership is not necessary.

JERRY KOHN PUBLIC SERVICE AWARD

Jerry Kohn, WDØEGK, died of a stroke on November 2, 2008. Dr. Kohn was a family dentist to some club members, but to many more of us, he was the spark plug for numerous public service events. He was one of a handful of Hams who worked with the Cornhusker State Games every year since its inception in 1984.

There was seldom a public service event that Jerry missed. His volunteer hours total was either at the top or near the top of the list year after year. Jerry served on the LARC Board for 14 years, beginning in 1980. The Jerry Kohn Award was created in 2008 to recognize outstanding public service by a club member based on statistics showing total participation and other factors, such as total hours or bike miles.

LARC AWARDS

STEVE MAY AWARD

Steve May, WAØASM, loved a challenge and always worked to fix his own radios as well as those of others. He was a man who never needed recognition but was always there to help. This award recognizes a club member who sees a need and steps forward to take it on without expecting recognition, and always with a smile. The current LARC Board will select the recipient of this award.

LARC CLUBHOUSE AMBASSADORS UPDATE

Ed Holloway, KØRPT

It is so great to finally have a home for LARC, but that also means we need to pitch in at meetings and for general maintenance from time to time. I'm grateful to Roark Pyle, WØLNE, for committing a few hours a week and providing custodial services to LARC and NeARES at the clubhouse.

If you can help, even if it's a few times a month, please reach out to Roark, as he will be the lead ambassador. Thanks again, Roark!

ARRL RADIO SPORT

ARRL Contest Calendar

OCTOBER

- ◆ 1–2 Collegiate QSO Party
- ◆ 17–21 School Club Roundup
- ◆ 15–16 EME — 50 to 1296 MHz

NOVEMBER

- ◆ 5–7 November Sweepstakes — CW
- ◆ 12–13 EME — 50 to 1296 MHz
- ◆ 19–21 November Sweepstakes — Phone

LOG FOLDING

Aaron Rogge, NØADR

Thank you to the September LOG folding crew: WDØEZI, KØHN, NØJLR, KRØKAT, KØKPH, KØRPT, Jon Peterson, Ayden Rogge, and Mitch Ryan.

Join us for the next folding session!

Date: Tuesday, November 1

Time: 6:30 pm

Location: LARC Clubhouse, 4420 NW 41st St.

BEST CHOICE UPC LABELS

Save your UPC labels from Best Choice products to bring to the club meeting.

FLEA MARKET UPDATE

Ed Holloway, KØRPT

Thanks to all who came, set up tables, brought stuff to sell, and had some fun. There were many of you who helped to make the second-annual Flea Market a success.

We'll do it again next year. Keep any eye on Facebook, upcoming editions of the LOG, and the club website for more information. Again, thank you!

AMATEUR RADIO HELPS DISABLED SAILBOAT TO PORT

ARRL

On September 7, 2022, Jeanne (Jan) Socrates, VEØJS/MM / KC2IOV, and her sailboat, the SV Nereida, set sail from Cape Flattery, the northwesternmost point of the contiguous US. She was on her way to visit friends in San Francisco, California, but two days of 35 knot winds and storms left her sailboat disabled and her onboard radio equipment marginally operational. Amateur operators in New Mexico, California, and Canada, and members of Group 7.155 heard her requests for assistance.

Gil Gray, N2GG, was able to contact Socrates on 40 meters. "Her power was extremely low, and she was unable to communicate on 14.300 MHz to notify the monitoring group on that frequency," said Gray. "She needed help with wind and sea conditions, and tidal data for San Francisco Bay," he added.

Low-power output on the HF radio made it very difficult to get Q5 copy, which would typically be Q2 or Q3. With the help of several software-defined radio (SDR) operators in Utah, California, and Maui, Hawaii, they were able to glean enough copy to understand her situation and answer questions for her navigation.

Gray; Jonathan Ayers, AI6NA; and Edwin E. Jenkins, K6EXY, are all experienced sailors. They were able to make periodic contact with Socrates and give her updated wind reports. Their last contact was on Monday, September 12, at 11:00 am (MSDT). By this time, Socrates was sailing with only the forward sail on her 38-foot sloop. Fortunately, a "following wind" kept her moving without a mainsail. As she approached the Golden Gate Bridge, Socrates was able to use the tidal information passed on by Amateur Radio operators to make it safely to Berkeley Marina in San Francisco Bay.

"I wouldn't call it a rescue," said Socrates, "just good Amateur Radio assistance — and I'm grateful for their help."

Socrates is 81 years old and the oldest person to have ever sailed around the world unassisted. Once her sailboat is repaired, she will sail again, not for records, but for the enjoyment of sailing the high seas.

Her situation is one of three events in early September in which Amateur Radio was able to provide emergency assistance.

More information about Socrates is available on her Facebook page: www.facebook.com/SV-Nereida-243122859725372

HURRICANE WATCH NET UPDATE FOR IAN - UPDATED 9/29

ARRL

The Hurricane Watch Net (HWN) has been in operation since the morning of September 27, 2022, as Hurricane Ian swept across Cuba and headed toward Florida's Gulf Coast. The HWN continues to operate on both 14.325 and 7.268 MHz as propagation permits. The 20-meter net resumed at 8:00 am Eastern Time on Thursday, September 29, and will continue until further discussion and conditions warrant closing-down the net.

At 5 am EDT on Thursday, the National Hurricane Center (NHC) reported that Ian is now a tropical storm located 40 miles southeast of Orlando, Florida, with maximum sustained winds of 65 mph. Ian is moving toward the northeast near eight mph, and is still expected to produce strong winds, heavy rains, and storm surge across portions of Florida, Georgia, and the Carolinas. "On the forecast track, the center of Ian is expected to move off the east-central coast of Florida later today and then approach the coast of South Carolina on Friday. The center will move farther inland across the Carolinas Friday night and Saturday," included the report.

As the storm moves toward the Atlantic, and then back into the coastal states, the focus of the HWN will change to receiving damage reports for the National Hurricane Center, handling messages for Emergency Operation Centers, and other agencies. The HWN will also assist Salvation Army SATERN Net partners to move health and welfare communications traffic out of the affected areas.

"We appreciate the cooperation of amateur operators and nets in allowing us clear frequencies to make these important contacts as Florida and the southern states work to recover," said HWN Assistant Net Manager Stan Broadway, N8BHL.

The HWN disseminates the latest advisories issued by the National Hurricane Center in Miami, Florida. The net also obtains real-time ground-level weather conditions and initial damage assessments from Amateur Radio operators in the affected area and relays that information to the NHC by way of WX4NHC, and when required, the Canadian Hurricane Centre.

Amateur Radio operators who want to monitor or participate in the hurricane nets should visit these two useful and informative links:

The Hurricane Watch Net: hwn.org/tools/useful-links.html

VoIP Hurricane Net: voipwx.net
