## President's Message

Aaron Rogge, NØADR, LARC President

According to the calendar, it is officially spring – even if the weather hasn't made up its mind. While Mother Nature figures out what season we are in, LARC is moving forward.

Saturday, April 1, was the annual SKYWARN® training sponsored by NeARES, the National Weather Service, and Lancaster County Emergency Services. Storm packets are being finalized and will be sent to all credentialed spotters in Lancaster County soon. Thank you to everyone who came out and completed the training and all of the credentialed spotters in Lancaster County.

For all of the contesters, including the dabblers, remember the upcoming Nebraska QSO party scheduled for April 15-16. For details, check out <https://nebraskaqsoparty.com>. This is an excellent opportunity to add Nebraska contacts to your logs and help those looking for Nebraska to add to theirs.

Our first public service event of the year is Sunday, May 7: the Lincoln Marathon. The marathon holds a special place for me as my first public service event as a ham. I spent a cold, windy day standing on the bike path along Highway 2, now Nebraska Parkway, but I had a blast. If you haven't helped before, don't let that hold you back.

Then comes the Nebraska ARRL convention on Saturday, May 13. Vendors include D&L Antenna and Associated Radio. A great lineup of speakers is planned for this full-day event, along with VE exams and great prizes. You won't want to miss it. Check out <http://www.lincolnhamfest.org> for all the details.

Thank you for being a part of the Lincoln Radio Club and the Amateur Radio community. I look forward to meeting you at the next club meeting and on the air.

## Flea Market

## VE Report

Chris Evens, KCØPJR,  
VE Coordinator

### March VE Sessions:

March turned into a very busy month even though it didn't start out that way. Our first session on March 2, the normal first Thursday of the month, unfortunately, didn't have anybody show up. Fortunately, that didn't hold us up on the next two sessions held Saturday night, March 11, and Monday, March 20. Everyone, who tested this month, earned a new license. They are as follows:

#### TECHNICIAN

- Andrew Andreassen, KFØLWV, Pleasanton, NE
- Paula Brown, KFØMAL, Lincoln
- Genevieve Ellerbee, KFØMAK, Lincoln
- Benjamin Franks, KN6YYR, Fallbrook, CA
- James Luethje, KFØMCU, Lincoln
- Andrew Spader, KFØMCT, Lincoln
- Christian Swanson, KFØLZS, Lincoln
- Ivan Vancas, KFØMAJ, Lincoln
- Zachary Vancas, KFØLZT, Lincoln

#### GENERAL

- James Brown II, KFØLXS, Lincoln

### Congratulations to our new licensees!

As a reminder, the FCC sends out an email once they get the final application for each new license so you can pay their \$35 processing fee. If you don't get you

email within the allotted time, please feel free to contact your VE team or the ARRL at [vec@arrl.com](mailto:vec@arrl.com) as the second step in figuring out where your application was held up. Your first step should always be to verify in your Junk Mail as sometimes they are filtered there instead.

Volunteer Examiners (VE's) who participated this month are: NØADR, WØBCL, KCØHN, KCØPJR, NEØTM, and N8VRX. As we didn't take roll on the March 2 session when nobody showed up, I apologize if I have missed you here. Thank you for giving your time to promote and advance the great hobby of Amateur Radio.

## LOG Folding

Aaron Rogge, NØADR

Thank you to the March LOG folding crew: WDØEZI, KCØHN, NØJLR, KØJSL, KRØKAT, KØKPH, NEØTM, John Peterson, Liam Rogge, and Mitch Ryan.

### Jeremy Bower Biography

Jeremy Bower graduated from Ohio State University in 2005 with a B.S. in Atmospheric Science. During his undergraduate career, he worked as a driver and forecaster for Storm Chasing Adventure Tours. After relocation to Lincoln, Nebraska, Jeremy continued to study the weather and became a lead forecaster for the University of Nebraska's Vortex Intercept Team from 2006 - 2009. Jeremy also interned as a meteorologist and provided severe weather briefings for the Lancaster County Emergency Management Agency.

Jeremy created JRBStorm Photography to share his love of photography and weather. The photography he captured while living on the plains has been used by The Weather Channel, emergency management agencies, and the National Weather Service for educational purposes. His enthusiasm for integrating science and art has enabled Jeremy to participate in various outreach events, including presentations at Ohio State University, the University of Nebraska-Lincoln, and Ohio University.
